Long Lake, Minnesota 55356

Dear Representative,

This letter is a testimonial to the success and quality of the Buggslyer Insecticide product you have on the market. I almost never write product testimonials, but in this case, I feel that such a statement of thanksgiving is very deserving and necessary. I am very appreciative of this product and the success I have had with it.

For many years, from mid September up to the last week of October (and in some years even later), I have had a huge problem with ever present Box Elder bugs on the south side of my house. This side is also the garage door side, and the main entry into the home, so whenever a door was opened that meant that these "creatures" were able to gain access to the interior. Many got in the garage, almost none got into the house, thank goodness. Now, where I once had hundreds of Box Elder bugs flying and crawling around, staining up my siding, every fall, I have only a very few (new arrivals) since my initial application on Monday, September 22<sup>nd</sup>. An easy application of this product eliminates a problem that I had every year in late summer and early fall. My house is visual proof that this stuff really works.

Your Buggslyer product really works and it is worth every penny I paid for it. It takes care of the bugs NOW, and it does not stain the siding or the finish on my entry doors. Maybe this really is the best invention since sliced bread.

Thank you!

Sincerely,

A handwritten signature in blue ink, appearing to read "Dan", with a large, stylized flourish extending to the left.
